PREFACE.

This Register contains the names of all persons who have been enrolled for at least one term as students in any of the courses of instruction in the School of Industrial Science or in the School of Mechanic Arts of the Massachusetts Institute of Technology, and whose connection with the Institute as undergraduates terminated before October 1, 1919, except for certain members of classes prior to the class of 1920 who, after war service, have returned to the Institute as students. In general, however, the names of students who entered with classes that graduate after 1919 are not included, even when such students are not at present attending the Institute.

The addresses and occupations have been corrected in accordance with information furnished prior to April, 1920. The omission of an address indicates either that none has been supplied or that letters mailed to the last known address have been returned as unclaimed. Information regarding incorrect or missing addresses and occupations is earnestly desired by the Registrar.

In the Alphabetical Register the year number immediately following name and degrees indicates class affiliation. In the case of graduates this is followed by Roman numeral and class year indicating the Course and year in which the student received the degree of S.B., Bachelor of Science, viz.:—

I. Civil Engineering:
- Option 1. Hydraulic Engineering.
- Option 2. Railroad Engineering.

II. Mechanical Engineering.

III. Mining Engineering and Metallurgy:
- Option 1. Mining and Metallurgy.
- Option 2. Metallurgy.
- Option 3. Mining.

IV. Architecture and Architectural Engineering:
- Option 1. General Architecture.
- Option 2. Architectural Engineering.

V. Chemistry.

VI. Electrical Engineering.

VI-A. Electrical Engineering Co-operative Course.

VII. Biology and Public Health.

VIII. Physics:
- Option 1. Industrial Physics.
- Option 2. Theoretical Physics.

IX-A. General Science.

IX-B. General Engineering.

X. Chemical Engineering.

X-A. Chemical Engineering Practice.

XI. Sanitary Engineering.

XII. Geology and Geological Engineering.

XIII. Naval Architecture.

XIII-A. Naval Construction.

XIV. Electrochemical Engineering.

XV. Engineering Administration:
- Option 1. Civil Engineering.
- Option 2. Mechanical and Electrical Engineering.
- Option 3. Chemical Engineering.

S. & L. Science and Literature.

Phil. Philosophy.

Elect. Elective.

If a graduate has received only an advanced degree from the Institute, this degree, together with the year in which it was conferred, is indicated. In case a graduate has received not only the Bachelor's degree but also advanced degrees from the Institute, these are recorded in the order in which they were granted. Degrees received from other institutions are placed immediately after the name.

In the case of special students the Course pursued is indicated so far as it is practicable and the years of attendance are shown. Graduates and special students of the School of Mechanic Arts of the Institute are indicated in a manner corresponding with the rest of the general scheme. Parentheses, used in connection with the names, indicate, so far as is known, the usual form of signature.

The Geographical and Class Registers are intended to serve merely as indexes. For more detailed information in regard to any individual, reference may be made to the Alphabetical Register. In the Class Register names of graduates are printed in capitals and small capitals. In case a graduate affiliates with a class other than the one with which he received his degree his name is listed in the class with which he affiliates.

In this edition the names of former members of the Corporation and former members of the Instructing Staff have been added.
